Looking for a great game that combines the use of your grey matter with the thrill of real-time search, find and destroy simulation?
THIS IS IT!!
Don't take our word for it –read what the papers say:
"Laser Squad is one of the best games to appear"— Commodore User.
"Great graphics, sound, playability and hookability to boot. One player it's great, two players it's unbeatable"—C & VG.
Laser Squad combines strategic skill with the use of grenades and a variety of automatic weapons to defeat your foe. You can take the part of hunter or hunted—play with a friend and take turns at opposing roles. One player option plays against an artificial intelligence so highly developed it bites!
—Bite back— play the game. BUY THE BEST —Laser Squad
